

The sea proven OCEAN EAGLE 43 is an ocean patrol trimaran combining a very slender hull with two small floats designed to maintain the required stability.

This combination reduces the fuel expenditure, increases speed and autonomy, while ensuring a good level of comfort even in moderate to rough sea conditions.

## MAIN CHARACTERISTICS

✦ Length Overall	43.6 m
✦ Beam Overall	15.2 m
✦ Maximum speed	30 Knots
✦ Range at 11 Knots	5000 NM
✦ Crew	13
✦ Fuel	27m3
✦ Hull/Superstructure	Composite
✦ Classification	Bureau Veritas

## MISSIONS

- ✦ Maritime police and state action at sea;
- ✦ Surveillance of exclusive economic and fishing zones;
- ✦ Monitoring of marine environment
- ✦ Fight against piracy, trafficking, smuggling and illegal immigration;
- ✦ Search And Rescue (SAR)
- ✦ Ocean Eagle 43 can also be adapted for special operations support as well as for anti-submarine operations.
